

The GMAT® Official Guide

Unique Questions' List

(For Verbal Section)

The Official Guides (OGs) have been universally acknowledged as the best source for GMAT practice questions. The latest edition available in the market is OG 12. However, we recommend that you also practice from the OGs 10 & 11.

In this regard a common grouse of the students is that most of the questions are repeated across the OGs. Take a look at these numbers – OGs 11 & 12 have roughly 900 questions each out of which roughly 600 questions are the same but 300 questions are different.

This means that each of the OGs 11 & 12 is a source of 300 unique questions which you obviously cannot afford to miss. We have provided below a list of these questions for easy reference so that you don't end up practicing the same question twice. At present this list only covers the Verbal section but we'll soon be adding a list for the Quant section as well.
