- Strategic relationship building between different regions of an organization that helps in defining the task based approach to the region specific advantages.
- Resource planning, hiring, training and participate in organization resource development plan.
- Act as a Mentor for Graduate Engineers.

Employment Scan:
**06/2012-Till Date Reinertsen AS
Consultant Engineer**

Reinertsen AS is one of the mid-size EPC contractors in North Sea area serving oil and gas sector. More information at www.reinertsen.no

06/2013 – till date

Wintershall Maria: Senior FEED engineering

- Riser base gas-lift and umbilical concept selection
- Responsible for delivery of the engineering services worth 0.6 MNOK.

Statoil – Visund Nord Riserbase: Project Package Engineer

- Responsible for delivery of the equipment worth 2.5MNOK. Includes static mechanical equipment like accumulator, compensator. Subsea equipment like Umbilical.
- Tasks like vendor identification; prepare technical specifications for tenders, compare the tenders. Follow up closely with the suppliers throughout the project life cycle.
- Operations and planning towards delivery of subsea umbilical system.
- Offshore assistance during Riser base Installation

**08/2008-05/2012 FMC Technologies
Engineer Manager**

FMC technologies, is a major OEM and services company in oil and gas business, listed among Forbes Fortune 500 companies. More information at www.fmctechnologies.com

- Active role in recruitment, training, resource planning, project planning.
- Responsible of 30+ engineers in multiple products category viz. subsea production trees, wellhead Systems, loading arms etc.
- Responsible for building a strategic relationship between FMC India and FMC Norway and between FMC India and FMC France, towards defining business strategies, knowledge transfer, IT resource planning.
- Develop new processes towards building a new subsidiary unit for FMC technologies.
- Project administration; CTR preparation, planning and execution.

Major Projects:

- Shallow Water Drilling System:
Lead a team of 4 engineers and budget of USD 30000
- Shallow Water Completion System:

Lead a team of 5 engineers for shallow water wellhead and tree engineering from concept to detailed engineering with budget allocation of approximately.

- o Participated in future technology development projects in oil field industry.

02/2006-05/2008 Aker Solutions (MH), Kristiansand, Norway

Aker solutions, is major player in oil industry with varied products and services. More information at www.Akersolutions.com

Responsibilities:

Engineering consultant at Aker Solution in Kristiansand and later on moved to Mumbai office to lead a team of 4 engineers.

Oil and Gas top side equipment sizing, general arrangement and equipment detailed drawings, as-Built drawings and project documentation.

Prepare the project schedule, time sheet processing and approval.

08/2002-07/2005 Atlantis Lab Private Ltd.

Atlantis Lab was a startup engineering consultancy firm and I was 9th employee in the organization. I was working in various roles and responsibilities and travelled extensively and worked with many organizations as a consultant.

Key Highlights:

- o Lead a team of 25 engineers at **Schneider Electric (GESC)** and got the preferred vendor status in a span of 1.5 year for engineering services.
- o Represented for a corporate training and technical skill development at **Atlas Copco, Nasik** with live project.

07/2001-08/2002 Whirlpool India Ltd.

Whirlpool is a major home appliances maker in the world market and has manufacturing and R&D division in Pune, India. More information at <http://www.whirlpoolindia.com/>

Trainee Engineer: Supported the product development center. Worked extensively in R&D lab, mass manufacturing technology and cost control projects.

Global Assignments

- o Trondheim, Norway at Reinertsen AS 1year + currently pursuing
- o Kristiansand, Norway at Aker Solutions for a period of approx. 1 year.
- o Malaysia, at Aker Solutions fabrication yard for the manufacturing of Derrick.
- o Houston, USA at FMC technologies for a period of 1 year.
- o Sens, France at FMC technologies with Chiksan range of products

Trainings Attended

- o Field Training at Justin, Texas (Oil Field Service Support)
- o Engineering Boot Camp at ITC Infotech
- o Engineering Boot Camp at FMC Technologies
- o Engineering Optimization at IIT Madras by Prof. S.S. Rao
- o Design Practices at FMC Technologies
- o Subsea Systems at FMC Technologies
- o Interviewing Techniques at FMC Technologies
- o Emotional intelligence at FMC Technologies

Education

1996-2000

Bachelor of Mechanical Engineering under Shivaji University, Kolhapur with Distinction (67.2%, Grade A).

1994-1996

High schooling from Pune Board with Distinction (80.5%, Grade A), PCM as Major

1994

Schooling from Pune Board with Distinction (86.28%, Grade A)

Extracurricular Activities:

- Played field hockey at school level and soccer at college level.
- Participated in Fashion Show organized in university
- Participated in organization of many college events

Hobbies:

Mountain Hiking since 2001.

- Climbed some of the most exciting mountains in the world like Kumara Parvata in India and Kjerag Bolten in Norway.
- Lead hiking team on many occasions
- Aspire to go to Everest Base Camp in next 5-6 years.

Meditation:

Practicing meditation since 1996.

- Visited major meditation centers like Aurobindo Global City Pondicherry (Matri Mandir), ISKON Bangalore, Vipasana Meditation Center Hyderabad
- Vivid reader of the many books by spiritually inspiring leaders
- Experimenting with different meditation techniques
- Participated in many group meditations
- Writing a essay on "My Experiment with Spirituality"
