### EXPERIENCE

**MISYS FINANCIAL SOFTWARE** (*Financial Services Software provider; Revenues of US \$900M*)

Bangalore

**Software Engineer**

September 2013 – Present

**Associate Software Engineer**

July 2011 – September 2013

Designed and developed technology solutions for end to end lending - from loan establishment through to processing and servicing.

#### *Leadership*

- Led a development team of 6 engineers in the loan enhancements project of the product FusionBanking Essence 4.0, for which The Student Loans Company in UK signed a deal worth over GBP 5.9M.
- Inspired the team by single-handedly delivering a complex lending requirement with zero defects in half the estimated time.
- Mentored and trained 3 new employees in regard to understanding banking software system and developing new features.

#### *Teamwork*

- Collaborated with system experts to improve the performance of the loan establishment process by 50%.
  - Critical for a large upgrade deal worth over €2.5M for FusionBanking Essence 4.0 at CRDB Bank, Tanzania.
- Reduced software defects by 20% by fostering closer cooperation between development and testing teams.

#### *Client Interaction*

- Played a critical role in the multi-million dollar implementation of the flagship software, Bankfusion Universal Banking (BFUB) 2.01, in Cooperative Bank of Kenya (COPK).
  - This implementation was recognized by Misys as the best implementation of the product till date.
- Presented recommendations to executives in COPK on strategies to migrate critical customer data and to correct the invalid data from the previously installed banking software. Recommendations were approved and adopted.
- Spearheaded the performance improvement of the End of Day (EOD) lending batch processes by 20-30% at COPK.
- Answered with ease both functional and technical queries on BFUB 2.01 put forth by the software consultants in the Misys Academy Team, UK. Efforts led to a faster certification of the software for early adoption by COPK.

#### *Planning*

- Assisted line manager in strategic development planning and resource allocation.

#### *Process Improvement and Problem Solving*

- Advised senior management on implementing code review tools to improve productivity leading to defect rate reduction of 10%.
- Initiated to analyze, identify and resolve gaps in the software product for an improved user experience to the banking customers.

#### *Awards and Achievements*

- Achieved first tier rank (*Top 5%*) in performance reviews for each annual evaluation period.
- Received promotion to the role of Software Engineer in two years (standard three).
- Awarded 5 Misys Spot Awards for excellent performance and strong leadership.

**AJWAN TRADING ENTERPRISE**

Kuwait

**Summer Intern**

May 2010

- Guided a team of multinational students to develop inventory management software while attending technology training sessions.
- 

### EDUCATION

**NATIONAL INSTITUTE OF TECHNOLOGY CALICUT**

Calicut

**Bachelor of Technology in Computer Science and Technology** (First Class, GPA: 7.26/10)

2007-2011

- Marketing Coordinator: Signed Amity Global Business School as the Main Sponsor of Ragam 2011, the cultural festival of NIT Calicut, for a sponsorship amount of INR 400,000. Led two marketing teams, totaling 5 managers and 12 executives.
  - Senior Executive Member of Computer Society of India: Managed a laptop fair in association with a local laptop dealer at Tathva 2009, the technical festival of NIT Calicut, resulting in sales of over 35 laptops at discounted prices to the needy college students.
  - Member of a dramatics team: Won 3<sup>rd</sup> place in an annual literary event, Triple Mash.
- 

### ADDITIONAL INFORMATION

- Founder and coordinator of the Misys Soccer Club: Led the growth in the number of members from 8 to greater than 20.
- Enjoy cricket, basketball and volleyball. Travelled extensively through India and the Middle East.
- Passionate about technology. Certified Excellent in Core Java Development by NIIT.
