

GLOBAL MBA

PLACEMENT **REPORT**

Class of 2013

Sandra RICHEZ

Head of Global MBA Career
Services & Student Affairs

In a mediocre employment market worldwide with tightening labor legislation for foreign talent, the 2013 survey shows notable progress in the number of MBAs placed in top-tier firms, rising average salaries, and effective career changes both geographically and functionally. Despite improvement over the past 2 years, delay to placement remains a challenge, explained by the number of graduates seeking employment outside home countries and those seeking extensive career change. 🗨️
