Key selling points:

- Good move-in condition
- Very spacious housing

Uppers:

- ✓ "Some people might think Summerhill is too far from campus but you can walk to campus in 25-30 min or take the bus from East Hill Plaza which passes very frequently. I don't even need to look at the bus schedule anymore because the bus is either waiting at the stop or I have to wait no more than 5-7 min for the next one to show up."
- ✓ "Close to the grocery store P&C and East Hill Plaza bus stop."
- ✓ "Our unit was newly renovated and in excellent condition."
- ✓ "Quite spacious."

Downers:

- × "The bus can be a pain on the weekends if you don't have any other means for transport. To clarify, a bus comes every 30 minutes to an hour instead of every 10 minutes. You just have to plan accordingly or bring a car."
- × "There have been issues with previous tenants getting the security deposit back in full, or having many additional charges taken out. Please be sure to document EVERYTHING upon move-in and have management do a walk-through with you."

The Commons/ Downtown

<http://www.downtownithaca.com/>

The Commons is at the heart of downtown Ithaca. It is a vibrant area, and is where many local events take place. Living here, or in the surrounding several blocks (also part of downtown), you will be close to many shops, restaurants, and bars.

There is a lot of housing available in this area. From our survey results, students in the Commons/ downtown are generally satisfied with their landlords. Also, the rent is, on average, cheaper than housing options closer to campus. Also, almost all students take the bus; however, buses downtown are extremely reliable and plentiful.

Other Housing Options

There are many other housing options available in Ithaca. These can be significantly better options for yourself, your family, or a group of classmates than the popular apartment complexes already discussed in this guide.

In general, the Ithaca housing market thrives off of renting private homes (many of which are rented to groups of students as a unit, or rented to individuals by floor or by room). Their prices tend to be much cheaper than those found in many of the apartment complexes, but usually price is a function of distance to campus. There are also several newer apartment complexes (as noted on the previous pages); older apartment complexes tend to be comparable in price to apartments in houses, and full houses.

Many students rent an apartment in a house, either by themselves as a studio or one-bedroom, or with other roommates. One-bedrooms in houses often have private entrances. These rental options are often inexpensive, spacious, and in older homes (although many are renovated; renovated apartments are, naturally, more expensive). Some students who rented apartments in houses are below:
