(18th percentile)

Definition

The three year mean GMAT Verbal score is 4.4. This score is better than 18% of GMAT Exam scores recorded in the past three years.

Note: GMAT scores are valid for five years. Even though your score won't change, your percentile ranking may change when compared with a newer pool of applicants. Shifts tend to be gradual over long periods of time.

The writing style of this essay prevented it from machine scoring, so no sub-score data is available. This is most often caused by a short essay, the use of repetitive statements, inclusion of non-English words, significant spelling errors or significant grammatical errors.

Essays that cannot be scored by machine are scored by two professional essay raters, and that data is not available for use in the GMAT ESR.
