20. If the economy is weak, then prices remain constant although unemployment rises. But unemployment rises only if investment decreases. Fortunately, investment is not decreasing.

If the statements above are true, then which one of the following must be false?

(A) Either the economy is weak or investment is decreasing.
(B) If unemployment rises, then prices remain constant.
(C) The economy is weak only if investment decreases.
(D) Either the economy is weak or prices are remaining constant.
(E) Either unemployment is rising or the economy is not weak.
